Severe weather creating hazardous driving conditions in Grand Forks and surrounding areas

Due to severe weather in and around the Grand Forks area, the North Dakota Department of Transportation would like to warn motorists about high winds and heavy rains causing flash flooding especially in low lying areas, debris on the roadway, and the potential for fallen trees and power lines on the roadways.

Motorists should use caution when traveling and should never drive through flooded areas.

The NDDOT encourages motorists to check road conditions before traveling due to rapidly changing conditions. For updated road information, call 511 from any type of phone or go to the Travel Information Map on our website at www.dot.nd.gov.
